Who Should Attend:

Individuals involved in package design, sales, specification, purchasing, scheduling, quality control, and production management. This seminar is appropriate for all levels of experience.

Participant Comments:

“Networking and seminar content are fantastic.”

“Great to understand production process from corrugator to convertor.”

“This course is a great overview for someone entering this industry.”

“I could immediately tell how passionate the presenters were and that makes all the difference in my ability to learn.”

“The breakouts were great, the detailed info on each topic, slides, and examples of real world application and issues.”

“I enjoyed the personal aspect of the training. It was an intimate environment but still presenting a wealth of information.”

\$995/person, \$895/person (Groups of 3+)
